## ABOUT THE INSTRUCTOR

The instructor for the  
*Intensive MCAT Science Review Course* is  
James L. Flowers, M.D., M.P.H.

Dr. James L. Flowers is African American and a native Milwaukeean. He holds a medical degree from the Harvard Medical School of Public Health. He is also a graduate of the Harvard-MIT program in Health Sciences and Technology. For more than fifteen years, *How to Study for the MCAT*, authored by Dr. Flowers was American's leading MCAT preparatory book. Dr. Flowers is also the co-author of the *Princeton Review Flowers & Silver MCAT*.

Dr. Flowers owns and operates the Flowers Medical Clinic in Milwaukee, Wisconsin. He is a board-certified specialist in internal medicine, with a special interest and expertise in pain management, a subject on which he has written extensively. He is the co-inventor of the analgesic Capsagel and co-owner of the associated patent.

*"The program is funded by the Milwaukee AHEC and the U.S. Division of Medicine, Bureau of Health Professions, Health Resources Service Administration, Department of Health and Human Services."*

Were you aware that there are nearly three applicants for every medical school slot? One means of nationally comparing and assessing student's academic achievement is through the MCAT. If you would like to obtain a competitive edge, we invite you to join other area minority students and participate in the **Intensive MCAT Science Review Course!**

The MCAT has four components:

- ◆ Verbal Reasoning
- ◆ Physical Sciences
- ◆ Writing Sample
- ◆ Biological Sciences

This comprehensive intensive MCAT science review course will thoroughly address:

- Physics
- Organic Chemistry
- Inorganic Chemistry
- Biology

Each session employs frequent and repeated self-testing and a fully simulated MCAT exercise. You will be able to monitor your progress as you study - eliminating any weaknesses and reinforcing strengths.

### HOW TO APPLY

Complete the attached Registration Form and return it by June 9, 2000.

Participants are required to attend all five sessions. Sessions will begin on time!

### WHO SHOULD APPLY

Under-represented minority students who are interested in enhancing their MCAT scores. You should have completed at least one year of Physics, Inorganic Chemistry and Organic Chemistry. In addition, you should have completed an introductory course in Biology.

### SELECTION

Enrollment is limited. You will be notified via telephone if you are selected to participate. If you are selected but can not attend, please contact us immediately at (414) 226-2432. Your slot will be reassigned. The pre-test will be administered on June 17, 2000.
