

Planning Support Team

May 5, 2008

Summary Notes

- Updated/accepted minutes of March 24, 2008; these are ready to post.
- Accepted minutes of April 21.

- Listening Sessions-Next Steps:
 - Notes from all sessions will be submitted to MP liaisons who in turn will disseminate to the participating units and also have them posted on the MP website.
 - Logistics for May 20-22 sessions were discussed; recommendations were made about units and individuals to add to the non-academic sessions; planning for involvement of external stakeholders and neighborhood groups will be made with the support of Tom L; and open forum will be held again, primarily for the campus community; 1.5 days of the visit will be reserved for site reconnaissance by the consultants;

- Subcommittee Reports
The Chairs reported that they are attempting to summarize their work in a brief document. Alan reported that the Engineering and Natural Sciences Subcommittee has identified 22 themes, primarily of an interdisciplinary nature; Marylou indicated that the Health Science Subcommittee has identified 12 themes, also interdisciplinary among three areas: Prevention/Public Health, Disease and Disability, and Basic Sciences LA-P (Liberal Arts and Professions) Subcommittee still has considerable data to summarize.

- Next meeting is May 19, 8-9 am
